11. ([REDACTED] - JMD) Messrs. Colby and Houston met with Senator Stuart Symington at Headquarters for a breakfast and discussion of the Church Subcommittee report on the ITT hearings. See Houston's Memo for Record.

25X1

12. ([REDACTED] - LLM) Met with Jim Woolsey, General Counsel, Senate Armed Services Committee, and provided him with a sanitized (excised) corrected copy of the 30 May 1973 transcript plus a copy for Committee retention with security deletions bracketed. Woolsey explained that revisions had to be kept to a minimum and appropriate adjustments in our revisions were made.

Woolsey asked for a sanitized version of General Walters' 6 July 1972 memorandum to Patrick Gray to be released along with the 30 May transcript. I explained several of the reasons why this could not be done, including Special Prosecutor Cox' instructions against release of such material. In response to his question, I told him that our correction and sanitization of the Committee's transcripts could not be considered as release approval by Cox and that was a separate issue for determination between Cox and the Committee.

25X1

13. ([REDACTED] - LLM) Arnold Smith, Senate Appropriations Committee staff, called and said the attorneys for Ehrlichman and Haldeman had requested a copy of General Walters' 6 July 1972 memo. I told Smith that the memo was classified and I was unaware that the attorneys were authorized to receive the information and on this basis Smith said it would be denied them. Smith also asked for assistance in identifying certain documents referred to by Patrick Gray which I was able to identify for him.

25X1

14. ([REDACTED] - LLM) Sidney Buford, State, called in connection with S. Con. Res. 23 and I outlined the essential points of what may be an Agency position, underscoring the fact that no official position had been taken as yet and suggested that [REDACTED] OLC, and an attorney on Buford's staff, Mark Spiegel, get in touch with each other to discuss this further at the staff level.
